Thursday, May 9 and Friday, May 10, 2024

Congress President

Prof. Dr. med. Stephan Lang, Essen

Honorary President

Prof. Dr. med. Barbara Wollenberg, Munich

WELCOME NOTE

Dear Ladies and Gentlemen, Dear Colleagues,

we are pleased to announce the 95th Annual Meeting of the German Society of Oto-Rhino-Laryngology, Head and Neck Surgery. From May 8-11, 2024, this traditional and prestigious event will be held at Messe Essen, Germany, and promises to be an outstanding event for all otorhinolaryngologists, allied health professions, and everyone interested in our specialty.

Guided by our theme „Crossing Borders“, we invite you to experience and create an international, interdisciplinary and interactive event. Together with neighboring specialties, we develop innovative solutions and treatment concepts for our patients on a daily basis. This congress will focus on such collaborations by covering a wide range of interdisciplinary topics, including the latest developments in the field of head and neck oncology, skull base surgery, orbit, otology and cochlear implant care.

The opening ceremony will take place at the Philharmonie Essen on May 8, 2024, kicking off three days of knowledge transfer, networking, and inspiration. Here you will have the opportunity to learn from renowned experts from Germany as well abroad and to share your own experiences and insights with others. A varied and broad continuing education program as part of the Annual meeting of the German Academy of Oto-Rhino-Laryngology as well as extra courses for nurses and allied health professions complete the program.

We are proud to welcome participants from Germany and abroad here to the Ruhr area, not only to offer them an unforgettable professional experience, but also to give them the opportunity to experience the culture and history of the region.

We would be delighted if you would already mark the dates in your calendar and take advantage of this unique opportunity to welcome colleagues from all over the world here in the heart of the Ruhr region. Further information will be available shortly on the homepage of the German Society of Oto-Rhino-Laryngology. We look forward to seeing you and to a successful event!

Sincerely Yours
Prof. Stephan Lang
